Re: QCX LLC – Certification Pursuant to CFTC Regulation 40.6(a): Market Incentive Program

Dear Mr. Kirkpatrick:

QCX LLC d/b/a Polymarket US (“Polymarket US” or the “Exchange”), a designated contract market (“DCM”) registered with the Commodity Futures Trading Commission (the “Commission” or “CFTC”), hereby files this notice pursuant to CFTC Regulation 40.6(a). This filing notifies the Commission of the adoption of a Market Incentive Program (the “Program”) as set forth in Appendix A. A complete description of the Program is included and segregated as Appendix B, for which the Exchange seeks confidential treatment. The Program will be effective on March 19, 2026.

The purpose of this Program is to increase volume and liquidity on the central limit order book by providing pro-rata incentives to eligible participants based on their share of executed volume in designated markets during specified incentive periods. The Program applies to all eligible participants and is intended to complement the Exchange’s other liquidity programs by broadly incentivizing trading activity across the marketplace.

This Program is being adopted pursuant to and in accordance with the Exchange’s Rulebook 3.11 (Incentive Programs), which authorizes the Exchange to designate Participants as Incentive Program Participants who may receive benefits in return for assuming certain obligations. The Program is being implemented to increase market depth, tighten quoted spreads, and improve liquidity on Polymarket US, consistent with Core Principle 2 (Compliance with Rules), Core Principle 3 (Contracts Not Readily Subject to Manipulation), Core Principle 4 (Prevention of Market Disruption), Core Principle 7 (Availability of General Information), Core Principle 9 (Execution of Transactions), and Core Principle 12 (Protection of Markets and Market Participants). The effective terms of the Program will be posted and publicly available on the Exchange’s website.

The Exchange certifies that the Program complies with the CEA, CFTC regulations, and the Core Principles. The Program is designed to promote fair and orderly markets, is not designed to permit unfair discrimination among market participants, and does not impact order execution priority or otherwise give participants any execution preference or advantage. In addition, the Exchange’s Control Desk in conjunction with the National Futures Association (“NFA”) as the Exchange’s Regulatory Service Provider, actively monitors for trading abuses and will take appropriate action against any Program Participant engaging in market abuses. Trading activity that violates the Exchange Rulebook will be disqualified from awards under the Program.

The Exchange is not aware of any substantive opposing views to the Program. The Exchange certifies that, concurrent with this submission, a redacted version of the Program was posted on Polymarket US’s website, and is accessible at: www.polymarketexchange.com. Please direct any questions regarding this submission to Andrew Clifford, Chief Compliance Officer, QCX LLC (andrew.clifford@qcex.com).

Sincerely,

Andrew Clifford
Chief Compliance Officer
QCX LLC

Appendix A: Terms and Conditions Market Incentive Program

1. Purpose

The purpose of the Market Incentive Program (the “Program”) is to increase volume and liquidity on the central limit order book of QCX LLC d/b/a Polymarket US (“Polymarket US” or the “Exchange”), thereby enhancing pricing efficiency. More volume and liquidity on the central limit order book and more efficient pricing benefits Participants in the marketplace.

2. Eligibility

This Program applies to all Eligible Participants. Eligible Participants are Participants who (i) are direct clearing Participants that connect to the Exchange via an API or via an independent software vendor (“ISV”); (ii) are in good standing; and (iii) meet any other eligibility criteria as Polymarket US may implement in its sole discretion, provided such eligibility criteria shall be posted publicly on the Exchange website. For the avoidance of doubt, the following Participants are not Eligible Participants: (i) Participants subject to executed Designated Market Maker (“DMM”) agreements with Polymarket US; (ii) Participants in Liquidity Provider Program; and (iii) Introducing Brokers (“IBs”) or Futures Commission Merchants (“FCMs”), and customers thereof when transacting via the IB or FCM. There is no limit to the number of Eligible Participants in the Program. All Eligible Participants will be automatically enrolled for each incentive period.

3. Effective Dates

The term of the Program will begin on the effective date of this Notice, which is 10 business days following its certification to the Commodity Futures Trading Commission (the “CFTC”), and will continue through February 28, 2028, or the date on which Polymarket US determines to modify, extend, or terminate the program. The Program may apply to some or all Polymarket Contracts as designated by Polymarket US. Polymarket US may, at its discretion, announce separate effective dates for different Series or terminate the Program for individual Series.

4. Requirements

During the Program, Polymarket US will identify and publish on the Exchange website the eligible contracts included in the Program, the Eligible Term for each contract, and the total reward amount per contract. At the end of each Eligible Term for a given contract, each Eligible Participant who traded in that contract will be awarded a share of the Volume Reward proportional to that Eligible Participant’s Eligible Volume relative to the total Eligible Volume from all Eligible Participants in that contract. Eligible Volume may, at the Exchange’s discretion, be limited to trades executed on the central limit order book between certain price levels. Polymarket US may apply Volume Multipliers during specified periods, as published on the Exchange website.

5. Terms and Conditions

Polymarket US is the sole arbiter of the Program, and any dispute will be resolved by Polymarket US in its sole discretion. All modifications will be made prospectively and, where required, will be submitted to the CFTC pursuant to Part 40. Polymarket US may modify the Program, and/or amend these Terms and Conditions at any time. In the event the Program or these Terms and Conditions are amended, Polymarket US will communicate these changes in writing to all Eligible Participants by publishing the updated Terms and Conditions on the Exchange website. Polymarket US reserves the right to cancel or withdraw the Program if it suspects abuse, fraud, or violations of applicable law or the Exchange or Polymarket Clearing Rulebooks with all Participants involved subject to review by the Polymarket US’s compliance department. Should Eligible Participants fail to comply with any provision of the Polymarket US or Polymarket Clearing Rulebooks, as determined by Polymarket US’s compliance department, they may, in Polymarket US’ sole discretion, be excluded from eligibility, or have their participation in the Program removed.

6. Definitions

- **“Eligible Term”** - A specified period, during which a contract is eligible for volume incentives, with a start and end date published on the Exchange website.
- **“Eligible Volume”** - Trades executed on the central limit order book at prices between the price levels specified on the Exchange website, in U.S. Dollars, during an Eligible Term, subject to multiplier adjustments.
- **“Eligible Participant”** - A Polymarket US member meeting the criteria in Section 2.
- **“Volume Reward”** - A fixed per-market reward amount for an Eligible Term, as published on the Exchange website.
- **“Volume Multiplier”** - A factor applied to Eligible Volume during designated periods to incentivize trading during specific windows.
