Re: QCX LLC – Certification Pursuant to CFTC Regulation 40.6(a): 2026 Market Maker Program

Dear Mr. Kirkpatrick:

QCX LLC d/b/a Polymarket US (“Polymarket US” or the “Exchange”), a designated contract market (“DCM”) registered with the Commodity Futures Trading Commission (the “Commission” or “CFTC”), hereby files this notice pursuant to CFTC Regulation 40.6(a). This filing notifies the Commission of the adoption of a 2026 Market Maker Program (the “Program”) as set forth in Appendix A. A complete description of the Program is included and segregated as Appendix B, for which the Exchange seeks confidential treatment. Terms not defined herein shall have the meanings assigned in the Polymarket US Rulebook. The Program will be effective on May 8, 2026.

The purpose of the Program is to promote consistent liquidity on established Polymarket US markets by incentivizing approved participants to provide continuous, competitive two-sided quotations across a broad base of instruments, which would benefit all market Participants.

This Program is being adopted pursuant to and in accordance with the Exchange’s Rulebook 3.15 (Incentive Programs), which authorizes the Exchange to designate Participants as Program Participants who may receive benefits in return for assuming certain obligations. The effective terms of the Program will be posted and publicly available on the Exchange’s website.

The Exchange certifies that the Program complies with the Commodity Exchange Act, as amended (the “CEA”), CFTC regulations, and the Core Principles. The amendments most directly affect the following Core Principles, as follows:

Core Principle 2 (Compliance with Rules): This Program complies with the CEA, CFTC Regulations, and DCM Core Principles. The Program is designed to promote fair and orderly markets.

Core Principle 3 (Contracts Not Readily Susceptible to Manipulation): The purpose of this Program is to increase liquidity which will deepen the order book and tighten spreads, thereby making the applicable Contracts less susceptible to manipulation.

Core Principle 4 (Prevention of Market Disruption): The Program promotes resting orders – it does not incentivize disruptive trading activity such as spoofing or wash trading.

Core Principle 7 (Availability of General Information): The Terms and Conditions of the Program will be filed with the Commission and made publicly available on the Exchange’s website.

Core Principle 9 (Execution of Transactions): The Program is designed to increase liquidity, thereby promoting tighter spreads and improving price discovery. This results in more efficient markets that benefit all Participants.

Core Principle 12 (Protection of Markets and Market Participants): The Program is nondiscriminatory, as rebates are awarded pursuant to clearly defined, objective criteria applied uniformly across all Program Participants.

Furthermore, the Exchange's Control Desk in conjunction with the National Futures Association ("NFA") as the Exchange's Regulatory Service Provider, actively monitors for trading abuses and will take appropriate action against any Program Participant engaging in market abuses. Trading activity that violates the Exchange Rulebook will be disqualified from awards under the Program.

The Exchange is not aware of any substantive opposing views to the Program. The Exchange certifies that, concurrent with this submission, a redacted version of the Program was posted on Polymarket US's website, and is accessible at: www.polymarketexchange.com. Please direct any questions regarding this submission to Dirk Scheepers, Deputy Chief Compliance Officer, QCX LLC (dirk.scheepers@qcex.com).

Sincerely,

Dirk Scheepers
Deputy Chief Compliance Officer
QCX LLC

Appendix A: Terms and Conditions 2026 Market Maker Program

1. Purpose

The purpose of the 2026 Market Maker Program (the “Program”) is to increase liquidity and overall market share on QCX LLC d/b/a Polymarket US (“Polymarket US” or the “Exchange”) by awarding rebates to Program Participants based on each Program Participant’s share of total maker notional volume within each opted-in Series during each calendar month. Only passive fills count toward rebate-eligible volume; taker volume is excluded. Rebates are tiered by market share and further adjusted by a Volume Credit Multiplier and Time Weight Multiplier, which will be communicated in advance to Program Participants.

2. Eligibility

This Program applies to Participants who have executed the Market Maker Program Participant Agreement and whose agreement has been approved by Polymarket US (each, a “Program Participant”). To qualify for rebates in a given Series in any calendar month, a Program Participant must achieve at least 5% of the total maker notional volume in that Series for that calendar month. Program Participants failing to meet this threshold shall not be eligible for rebates in that Series for the applicable month. Program Participants must remain in good standing at all times.

Participation in the Program is subject to approval by Polymarket US in its sole discretion. Polymarket US may approve, deny, or suspend Program Participant status at any time. Only approved Program Participants are eligible to earn rebates under the Program.

3. Effective Dates

The term of the Program will begin on the effective date of this Notice, which is 10 business days following its certification to the Commodity Futures Trading Commission (the “CFTC”), and will continue through the date on which Polymarket US determines to modify, extend, or terminate the program. The Program may apply to some or all Polymarket US Contracts as designated by Polymarket US.

4. Requirements

During the Program, Polymarket US will identify in advance to all Program Participants the Series and Products included in the Program, the applicable rebate tier thresholds, Volume Credit Multiplier, and Time-Weighted Multiplier for each Series. Rebates are calculated on a calendar month basis and credited to Program Participant accounts within seven (7) business days following the end of each calendar month. Polymarket US shall provide each Program Participant with a monthly report detailing maker volume, market share, time-weighted volume, and rebate amounts by Series within fourteen (14) business days following the end of each calendar month. Polymarket US reserves the right to adjust tier thresholds and multipliers upon ten (10) days’ written notice to Program Participants.

5. Terms and Conditions

Polymarket US is the sole arbiter of the Program, and any dispute will be resolved by Polymarket US in its sole discretion. All modifications to the Program, including these Terms and Conditions, will be made prospectively and, where required, will be submitted to the CFTC pursuant to Part 40. Polymarket US may modify the Program, and/or amend these Terms and Conditions at any time on a prospective basis. In the event the Program, including these Terms and Conditions, are amended, Polymarket US will communicate these changes in writing to all Program Participants. Polymarket US reserves the right to cancel or withdraw the Program if it suspects abuse or fraud, with all participants involved subject to review by the Polymarket US’s compliance department. Should Program Participants fail to comply with any provision of the Polymarket US or Polymarket Clearing Rulebooks, they may, in the Polymarket US’s sole discretion, be excluded from eligibility in the Program. Any exclusion from the Program

will follow Polymarket US's disciplinary procedures set forth in its Rulebook and in compliance with CFTC Core Principle 12.

6. Definitions

- **Product:** A kind of Contract, defined in product self-certifications to the Commodity Futures Trading Commission (e.g., "Election Winner Contract").
- **Series:** A thematically-bounded set of Eligible Contracts to which Quoting Requirements apply (e.g., in the case of sports, "MLS").
- **Time Weight Multiplier:** The multiplier applied to an executed maker fill based on the trading window in which the fill occurs, as specified in Section 5(b).
- **Volume Credit Multiplier:** The multiplier applied to maker volume in a Series for rebate calculation purposes, as specified by Polymarket US.
